SUMMARY

Passionate Front-End Developer with hands-on experience building responsive and user-friendly web applications using HTML, CSS, and JavaScript. Skilled in API integration, asynchronous data handling, and creating modern, interactive user interfaces. Strong foundation in software engineering principles, object-oriented programming, data structures, and problem solving. Experienced with Git and collaborative development workflows. Eager to continuously learn new technologies and contribute to impactful software projects.

TECHNICAL SKILLS

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React, Responsive Web Design
- Web Technologies: REST APIs, AJAX, JSON, DOM Manipulation, Fetch API
- Programming Languages: JavaScript, Java, Python
- Tools & Version Control: Git, GitHub, VS Code, IntelliJ IDEA
- Software Engineering: OOP, Data Structures, Algorithms, Software Development Principles
- Database & Backend Knowledge: Firebase, Basic Database Concepts

PROJECTS

Smart Dental Clinic Management System with AI Features (Graduation Project)

Developed a full-stack clinic management system using React and Supabase, with secure authentication and role-based user management (Admin, Doctor, Receptionist, Patient). Migrated backend logic from a FastAPI service to a direct Supabase architecture, integrating a 3D dental visualization model and an AI-powered assistant for diagnosis support. Implemented real-time data synchronization, dynamic reporting, and row-level security policies for data access control.

E-Commerce Web Application

Engineered and deployed a scalable e-commerce platform with dynamic product management, real-time cart updates, and secure authentication. Emphasized performance optimization, responsive UI/UX, and efficient data handling, delivering a production-ready application deployed on Vercel. <https://e-commerce-web-sk9w.vercel.app/>

Recipe Web Application

Built a dynamic recipe application using React with real-time API integration for searching and displaying recipes. Focused on responsive UI design, efficient state management, and seamless user experience, delivering a fast and scalable frontend deployed on Vercel. <https://react-recipes-proj.vercel.app/>

INTERNSHIP

Root Academy

- Developed web applications using HTML ,CSS, JS and React
- Collaborated with teams to enhance web app functionality and performance. Integrated APIs
- Communication between front-end and back-end systems.

EDUCATION

Bachelor of Computer Science
Arab Open University, Egypt Branch (2022-2026)

LANGUAGES

Arabic: Native English: Very Good

certificate

Root Front-end Development
